

KING APPEARS TO BE IN GOOD HEALTH.

Arrives in London and is Given
a Splendid Reception By
People All Along
the Route.

LONDON, June 23.—King Edward and Queen Alexandra arrived in London from Windsor at 12:30 p. m. today. His Majesty appeared to be in his usual health.

Festivities Begin.
With the coronation of the king to London from Windsor today, the festivities of the coronation may be said to have commenced and each day until midnight Saturday, when the last gun of the royal salute will be fired by the fleet at Spithead, will furnish its quota of attractions which promise to make the week memorable. From today the special ambassadors, envoys, and princes invited to join in the festivities become the guests of the King.

Royalty Arrives.
Throughout the day numbers of royal personages have been arriving from the Continent. They were met at the railway stations by royal carriages and guards of honor and were escorted to the official residences assigned to them. Consequently, plenty of entertainment was provided for the crowds of sightseers parading the streets.

They Greeted the King.
A big throng took the opportunity of greeting the King and Queen on their

entry into the capital and semi-state progress to Buckingham Palace. Accompanied by Prince and Princess Charles of Denmark, their majesties reached Paddington at 12:30 p. m. and proceeded in semi-state landaus, drawn by an escort of the Royal Dragon Guards, along the route usually followed by the late Queen Victoria.

Greeted With Cheers.
The throngs were thickly lined with people and the enthusiasm of the spectators evidenced their delight at the royal proof of the recovery of the King from his recent indisposition. Rigorous police protection was installed at the railway stations and the royal train was everywhere greeted with cheers.

King is All Right.
The King lost no time in alighting and after chatting with the railway officials, entered a carriage. He appeared to be in his usual health.

He walked, perhaps, somewhat heavily, but showed few symptoms of his recent illness.

His Majesty reached Buckingham Palace shortly before 1 o'clock. They received the same hearty welcome from the thousands of people who congregated in the avenues leading to the royal residence, as greeted them throughout the entire route from the station.

ROUTINE WORK IN THE HOUSE.

WANT INFORMATION ABOUT THE
PAYMENTS TO GENERAL
WOOD.

WASHINGTON, June 23.—Some routine business preceded the resumption today of the debate on the Philippine Civil Government bill. Bills were passed to make Great Falls, Mont., a port of entry for the collection district comprising Montana and Idaho; to authorize the Secretary of War to issue duplicates of certificates of discharge, instead of certified copies, as provided under the present law; to authorize the Secretary of War to pay to the Secretary of War for information as to any payments made by Gov. Gen. Wood to F. R. Thurber, and any other persons or corporations, together with the dates and amounts of such payments, for advocating reciprocity.

**HOLD CONFERENCE
IN TOPEKA TODAY.**
NEW YORK LEADERS AND POPULISTS ARE HAVING A TALK.

TOPEKA, Kas., June 23.—New York leaders of the Populist party of Kansas, including Congressman Jackson and Senator W. A. Harris are in Topeka today in conference, twenty-four hours in advance of the State Convention. It is expected that the convention will endorse the nominations made by the Democrats at Wichita and fill in the remainder of the ticket themselves.

BIG BUILDING BURNED.
NEW YORK, June 23.—A four-story building in Brooklyn, occupied by the American Tartar Company, was burned today. Loss \$150,000.

**PROVISIONS FOR THE
BIG LONDON CROWD.**

NEW YORK, June 23.—Extraordinary preparations are being made for provisioning London and the city of visitors on Thursday and Friday. A Herald dispatch from London, Smithfield is sanguine there will be no shortage of meat, owing to the fact that a week's supply will have to be distributed in the first three days. Billingsgate is not so sure of its power to meet all demands, as there will be a tremendous rush on fish, though immense orders have been given at the fishing centers. It is not unlikely within the next few days that salmon, lobsters and oysters may be at famine prices. Extraordinary prices have already been received by the various Billingsgate firms from the big hotels, particularly for salmon.

Last week was a fairly busy time, as 25,000 pounds of this fish reached the market. Today, tomorrow and Wednesday half a million pounds of salmon are expected. Besides this, more than double the week's supply of other fish will be disposed of in three days.

The big bakeries will also be overwhelmed with work during the next few days. The staffs of many of the firms have been largely increased to deal with the rush.

In many cases all Thursday's and Friday's bread will be delivered on Wednesday, but some of the bakers have found this impossible and will deliver on Thursday.

MOROS ATTACKED OUR SOLDIERS.

MEN GOT AWAY WITHOUT
A SCRATCH.

MANILA, June 23.—Five soldiers of the Twenty-seventh Infantry, forming an advance guard which was escorting a wagon train half a mile from Camp Vicars, island of Mindanao, were attacked today by ten bolomen. One soldier had an arm badly cut and another was seriously wounded on the head. The Moros captured a rifle and escaped unharmed. The Badingham Moros, who were on the warpath in the morning with the avowed purpose of killing negligent Americans.

The first and second separate brigades have been consolidated. Lieutenant-Colonel Frank D. Baldwin, from the island of Mindanao, reports that the Moros have had a big conference at Bacolod. The Sultan urged the policy of friendship with the Americans but two of the Dattos said they would die first. Others declared that if the two Dattos caused war they would assist them.

Three towns in the western part of the island are inclined to be unfriendly. Colonel Baldwin hopes to win them over to peace.

**THE STATE CONVENTION WILL
BE HELD IN NEBRASKA
TOMORROW.**

GRAND ISLAND, Neb., June 23.—Delegates to the Democratic-Populist State Convention to be held here tomorrow began to arrive today. William J. Bryan, Senator Allen, former Attorney General Smythe and others prominent in the councils of the fusion forces are expected this afternoon. Nobody who is here cares to predict the result of the convention, but all agree that it will be clear sailing if Mr. Bryan accepts the nomination for Governor. If he continues to refuse the nomination, there are nearly a dozen avowed candidates ready to enter the struggle and some think that such a refusal will result in the failure of getting the fusion forces together.

TALK OF HONOR OF OUR COUNTRY.

Philippine Bill Is Well
Discussed in the
House.

**KIND WORDS FOR
THE SPEAKER.**

WASHINGTON, June 23.—The consideration of the Philippine civil government bill was resumed today and Mr. de Armond of Missouri made a general speech in opposition to the policy of retaining the islands. His reputation utterly the charge that the opposition to the present Philippine policy in criticizing some of the acts of army officers in the Philippines was slandering and assailing the army.

Recalling Mr. Kahn's statement last week that in giving up slices of northwestern territory upon the occasion of the Oregon boundary dispute we had made a mistake which should never be repeated now, Mr. de Armond agreed that the surrender of the territory north of Washington on the Pacific had been a mistake but he pointed out that the territory which was given up to our border was capable of furnishing homes for our own people and eventually coming into the Union as a State while the Philippines, already densely populated by an alien people, could never be incorporated into the Union. The Democrats, he declared, were not opposed to expansion, founded on the American principle of expansion was one thing, colonial empire was another.

In conclusion, Mr. de Armond told of his presence in Havana May 30, when the American flag was lowered and the flag of the republic of Cuba hoisted. To him as an American citizen, he said, the sight was inspiring—"The American flag," he said, "than if the American flag had remained in Cuba and the faith of the American people violated."

Mr. Olmstead of Pennsylvania, who succeeded the present Secretary of the Navy as a member of the Insular Committee, followed Mr. de Armond. He summed up the situation in these words:

"The bill proposed by the minority means a complete renunciation by the United States of the duties and responsibilities which in the providence of God have been cast upon us."

"It means a cowardly retreat. It means the surrender of the flag of the United States in the eyes of all the world. It means something that the American people will never tolerate."

Mr. Olmstead of Ohio, then took the floor and under the latitude allowed in general debate discussed to some length the criticism of the rules of the House of Representatives and others. He pointed out that in the 56th Congress Mr. Cushman was voted out of the House of Representatives.

"The Committee on Rules of the Fifty-seventh Congress," he said, "could not by any stretch of the imagination be accused of an abuse of power. It had never been undertaken to strangle the voice of the minority. The committee had brought in rules for the consideration of the House of Representatives. The Pacific cable bill and the irrigation bill, all measures of far-reaching importance, were introduced. The committee had the honor of the five votes of the members of the Rules Committee. Without the committee on Rules the present system of procedure, he said, there would be chaos."

"I have served in this house under four speakers," said Mr. Grosvenor. "Among them was Mr. Carlisle, then whom no man could follow. He was a great parliamentary leader, the able man, the patriotic man; then Mr. Crisp, a man I loved, a man whose love of the country was expressed himself upon the House; a man without the experience of Carlisle or Crisp, but a man who was able to grasp those questions, and he and they were foremost and always ready to give their opinion. I could not speak of that trio of great men a marked difference in their treatment of the members of the House, but that is not important."

"I say, and I challenge contradiction, that the present Speaker of the House has been indefatigable, untiring in his purpose to treat all sides of this House and all the members of the House with absolute fairness." (Applause.)

**WEST INDIES SCANDAL
AGAIN BEING HEARD.**

WASHINGTON, June 23.—The special committee of the House of Representatives is investigating charges in connection with the purchase of the Danish West Indies. It resumed its duties today and Chairman Balz laid before the members a number of papers, including letters from the United States Minister to Denmark, Mr. Swenson; Henry White, secretary of the United States Embassy at London, and Captain Walter Christmas, who has been the central figure in connection with the charges.

Secretary Hay forwarded the letters without commenting on their contents. Mr. Swenson's letter encloses that handed to him by Captain Christmas, in which the latter states that Nellie Gron obtained his confidential report by foul means; that he has reason to believe that Gron falsified it, and denies a number of allegations which it contained. He says he never tried to impress Minister Hocking that bribery was the only way of getting the islands sold. He has not given the name of any Congressman in connection with the use of money. He makes a general denial of several matters.

Mr. Swenson says that in view of "Christmas" character and absurd and contradictory statements, he attaches no importance to the letter. He says the opponents of the sale of the islands are using the Gron-Christmas scandal to prevent ratification of the treaty.

Mr. White's letter is a detailed account of his visit to Denmark to bring about an agreement for the sale of the islands.

H. H. Rogers of the Standard Oil Company, sending a letter in which he says he had but one interview with Christmas and that was devoid of importance. He adds:

"The story he tells as to my claim, the ownership and so absurd on its face that it is hardly worth referring to."

Mr. Rogers offered to come as a witness if the committee wanted him. Richard P. Evans, one of the attorneys of the Standard Oil Company, denied some of the statements made concerning himself.

Mr. Rogers will not be asked to appear but that the Standard Oil Company is to forward an explanation. The committee also talked over the report and will reassemble later to pass on this branch.

OLD LADY FOUND DEAD IN ROOM.

75 Years, Turned
on the Gas.

**IT MAY HAVE
BEEN AN ACCIDENT.**

Mrs. M. M. Randall, aged 75 years, and living with her son at 1306 Harrison street, was found dead in bed about half past seven this morning with the gas jet open.

Death is supposed to have been accidental, as Mrs. Randall retired at 10 o'clock last night in the best of health and spirits. Her death was first discovered by her married son George, who said:

"Just before going to work this morning I entered mother's room to bid her good bye as is my custom, and upon opening the door I smelt the odor of gas. I immediately called a physician, who pronounced her dead."

"The stop-cock on the gas jet is in good order and it is thought that upon retirement Mrs. Randall accidentally turned the gas on again."

The dead woman was very well known in this city, being a member of Woman's Relief Corps of the G. A. R., and several other organizations. She was known as "Grandma" Randall to many.

She leaves two sons, George Randall and C. A. Gilbert. She had been twice married, her first husband, Sir George, died many years ago. She has several grandchildren and two great-grandchildren survive her.

The coroner has taken charge of the remains and an inquest will be held.

**SEVENTH WEEK
OF BIG STRIKE.**

COAL MINERS ARE STILL WAITING FOR SOMETHING TO
TURN UP.

WILKESBARRE, June 23.—The seventh week of the anthracite coal miners' strike began today very quietly. The big town of the coal region show no outward evidence that a strike is on, but in the small mining settlements men can be seen on all corners filling away the days, waiting for something to turn up. Interest was centered today in President Mitchell's address to the public.

Groups of men gathered in places in the mining towns and listened while one of their number read aloud the address of their chief.

The rumors that the coal companies expected a break in the ranks of the men are not borne out by the actions of the men. As far as is known, none of the companies in this region are attempting to resume mining.

Tomorrow night will occur the state dinner in the ball-room of Buckingham Palace, to which all the coronation guests have been invited. The ball-room has been elaborately decorated.

Will Dine With King.
There will be a large table for the King and chief envoys at the end of the hall, and fifteen smaller tables for the other guests. Princes Henry of Prussia will be seated on His Majesty's left.

Mr. Reid will be placed between the Earl of Pembroke, Lord Steward of His Majesty's Household, and the Maharajah of Gwalior, the most prominent of the Indian princes.

Thus the representatives of the two great republics will be given equal prominence in the procession.

After the procession, Mr. Reid will lunch at Buckingham Palace. That night the members of the American embassy will attend a dinner given by Lord Lansdowne, the foreign secretary.

Will See Review.
Mr. Reid will witness the naval review off Spithead, Saturday, from the royal yacht. The other members of the American embassy will be on board the boat set apart for the diplomatic corps. On Saturday night Mr. Reid will dine with Rear Admiral Crowsfield on board the battleship Illinois.

Mr. Proctor of Vermont moved to recede from amendment 13, relating to the construction of barracks at permanent military posts. After some discussion the motion was adopted.

Mr. Allison had called attention to the fact that the House had not agreed to the full and free conference asked for by the Senate, the effect of the motion would not be cleared. He thought the Senate ought to recede from amendments 14, increasing the appropriation for barracks, and others by \$1,000,000.

KELLER'S EMPLOYEES PLAY BASEBALL

SAFETY BOYS ARE HANDED OUT A DEFEAT BY THE LOCAL MEN.

One of the most exciting games of base ball outside of the professional ranks was played last Sunday afternoon between Keller's Clans of San Francisco, and the Safety Boys of Oakland, which ended in the most disastrous defeat for the Metropolitan Club by a score of twenty-two to nine.

The challenge to play came from the San Franciscans, who were vain enough to believe that they could easily serve up the local Kellers on ice. They were abashed when they discovered that the Oaklanders were more than their match on the diamond. The game was played on the grounds at Nineteenth and Perilla streets, and resulted in the Oakland team indulging in a French banquet at the expense of the visitors.

The most remarkable feature of the play was the holding of Henry of Oakland, who fumbled a ball with such a result that four men were enabled to go home before he discovered that he was supposed to be playing ball. George Keller of the local team, exerted himself so much in a verbal argument with the umpire, that he is now laid up with threatened tetanus. F. M. Tucker, the manager of the local team, essayed to be one of the umpires. He lasted just seventeen minutes, and today is wondering just what happened. Mr. Hahn of the Oaklanders put a wide swath in the bleachers, and was excused from playing, because of adipose tissue.

M. J. Keller, who was naturally supposed to be thoroughly neutral, seemed to be inclined toward the City Clans when the game started, but he switched his allegiance and was found rooting for Oakland at the finish. McDonald of Oakland made one great hit on the shins of the catcher. Jones and Smith, both of San Francisco each did wonderful work avoiding the ball.

The teams were: Oakland—Macdonald, Dickey, Thorpe, G. Keller, Neary, Whittier, Whelan, Cox and Roch. San Francisco—Neary, Rasmussen, A. Keller, McMahon, Smith, Jones, Larsen, Puckett and Kinsch.

SOUTHERN PACIFIC PLANS TO BUILD A GIGANTIC BRIDGE.

Contemplating the Construction of a Bridge Over the Straits of Carquinez.

SAN FRANCISCO, Cal., June 23.—The Southern Pacific Company is again contemplating the construction of a great bridge to span the Straits of Carquinez from Benicia to Port Costa.

The plan was under consideration years ago, but was abandoned as too stupendous an undertaking for the amount of traffic to be accommodated, but the great amount of passenger and freight traffic now being handled is too much for the old ferry steamer Solano to carry with any degree of dispatch.

General Manager Kruttschnitt has addressed a letter to a representative of the 1,000 petitioners, who recently asked for a more expeditious service, promising such action.

The bridge will cost a vast sum.

A letter has just been received by W. M. Ward of St. Helena, whose name headed the petition. It is signed by General Manager Julius Kruttschnitt of the Southern Pacific and reads as follows:

"Dear Sir: We have received the petition signed by you and numerous other citizens of Napa county, patrons of the Southern Pacific Company, asking that we make such changes in our train and ferry service as in our judgment would best reduce the distance and time in transit between the cities of Napa county and San Francisco.

"We are not unmindful of the great benefit that would accrue if this end could be attained. It is true that at one time a suggestion was made to transfer Napa Valley trains on a ferry between Vallejo and Vallejo Junction, but this would have been a partial one and temporary at best. The true solution of the problem is unquestionably by means of a bridge enabling trains to run through solid from Oakland to the Napa Valley. Studies for the proper location and design of a crossing have recently been taken up where they were left off years ago, and the growing volume of traffic, both passenger and freight, across the Straits of Carquinez, now awkwardly handled, as you know, by transfer ferry, as well as the growing importance of business into Napa and other valleys, demand an expeditious solution. A preliminary consideration of the subject until a satisfactory solution shall have been reached. In the meantime, every avoidable delay in the transfer at Vallejo and in the running of our trains will be considered.

Cummings of Iowa, G. T. Horn of the Pacific National Bank, New York; J. B. McDonald of the Hanover National Bank, New York; Jas. B. Forgan of the First National Bank of Chicago; E. D. WILL OF THE LATE LOUIS SLOSS

SAN FRANCISCO, June 23.—By the terms of the will, filed today for probate, of the late Louis Sloss, who died June 4 at San Rafael, Mrs. Sarah Sloss, his widow, is made sole legatee, with the exception of bequests to various benevolent institutions. Leon and Louis Sloss, Jr., sons of the deceased merchant, filed their petition for probate of the will as executors of the estate. The value of the estate is not set forth in the petition, the simple statement being made that the property is worth more than \$10,000. The estate consists of realty, stocks, bonds and cash, all community property. The probate proceedings will take place July 7 before Superior Judge Trout.

The will is a brief document setting forth the last wishes of the deceased in his own handwriting. It dated January 26, 1902, and was witnessed by Warren Gregory and William Denman, in making his wife sole legatee, the deceased wrote:

"I declare that it is my intention in this, my will, to make no provision for any of my children, Bella, Leon, Louis, Joseph and Max, believing that their mother will amply provide for them."

The deceased named all four of his sons as executors, but requested that only two of them serve. No bond is required of them.

The specific bequests are as follows: Pacific Hebrew Orphan Asylum, \$10,000; Roman Catholic Orphan Asylum, \$2,500; Protestant Orphan Asylum and Hospital for Children, \$2,500; Woman's Exchange of San Francisco, \$1,000; Eureka Benevolent Society, \$1,000.

The final settlement and account of the estate of the late Lyman C. Parke, who left all his property to his widow, Beatrice Parke, has been ordered. The estate consists of \$20,000, on hand, one half interest in the "Bright Star" group of mines in Kern county, a half interest in the "Chill Hill Mine," Calaveras county, and interests in eleven different patents for labeling guns. The estate also owns 3,000 shares of the Gravity Can Label and 2,000 shares in the automatic car coupon.

DEFENDS THE HONOR OF THE UNITED STATES SENATORS.

Henry Chabot Lodge Roasts the Notorious Maclay—Celebration at Yale Today.

NEW HAVEN, Conn., June 23.—The commencement exercises of Yale University were begun today with the class day ceremonies of academic and scientific departments and the anniversary exercises of the law school. Beautiful weather prevailed and the exercises were attended by large crowds.

Senator Henry Chabot Lodge of Massachusetts, delivered an address to the graduating class of the law school. After sketching briefly the early career and training of Ellsworth and his selection as a delegate from Connecticut to the Philadelphia convention in 1787, Senator Lodge referred to the problems which faced the convention and continued:

"Ellsworth won his victory for equality of State representation in the branch of Congress, but did far more even than this, for he saved the Constitution itself and made it possible. Just now, there is a movement on foot to bring about the election of Senators by direct popular vote. If successful it will inevitably be followed by proportionate representation in the Senate, and the most radical revolutions conceivable will take place in our form of government. If the Senate is placed upon the same basis as the House and is chosen in the same way, by the same consistency, its character and meaning will be completely changed. The States will be hopelessly weakened and the balance will be destroyed, centralization will advance with giant strides and we shall enter upon a period of constitutional revolution of which the end cannot be foretold. When we contemplate what the equality of the Senate meant at the time of the Philadelphia convention, what it had meant throughout our national life and what its overthrow would mean today, we realize the great service of Ellsworth, and how large and enduring a place he holds in our history."

In speaking of a charge made by one of Ellsworth's contemporaries in the Senate, Wm. Maclay of Pennsylvania said that Ellsworth was a tool of Alexander Hamilton, whom Maclay regarded as totally corrupt, the Senator exclaimed:

"How false it all is. What a lesson it is to us! I never remember the time when I have not heard the Senate of the moment derided as its lowest point as having fallen far from the high level of the earlier and better days. Then I read Maclay and take heart, for if he is right and our Senate and our Government were such as he described, and if the bitter critics of the moment are also right, and if we are worse now than in the earlier and better days, then indeed for business considerations the Senate should survive greater and more powerful, more honored, at home and abroad than ever before. Then I feel sure that the critics of his kind, past and present, must be wrong, for if they were not, the Republic would have died. The Maclays, like the poor, are always with us, sole proprietors of righteousness, and disturbed by any outcry against their self-imposed monopoly."

RUN A ROD INTO HIS BRAIN

REMARKABLE CASE IS REPORTED FROM A MINE NEAR GEORGETOWN.

SACRAMENTO, June 23.—A Bee special from Auburn today says: J. D. Gill, who was injured in a mine near Georgetown a few days ago, died here on Saturday. The funeral takes place in this city today. He was the father of Mrs. L. F. Bailey of this city and leaves a widow and children.

LOSS BY THE FIRE AT FRESNO

FRESNO, June 23.—The big fire in the Southern Pacific round-house here was not extinguished until a clock today morning. Its origin is attributed to spontaneous combustion of oil saturated with waste in the machine shop at the northwestern end of the brick structure. The interior and roof had received two coats of fresh paint on Saturday and to this fact is ascribed the general bursting into flames of the upper portion of the structure. At the time of the fire, the round-house were in the round house, all equipped for the next day's work, nine with oil tanks full, one of them having a tank containing nineteen hundred gallons. The loss by the fire is estimated at \$75,000.

An effort was made to move engine 1208 out of the round house, but she had only twenty-five pounds of steam and the effort failed. The engine, four axles destroyed and fit only for the scrap pile. One of these was an old timer, which came around the time of the Civil War. She had been in the round house for a long time. Her original cost was \$30,000.

The other three cost originally from \$15,000 to \$20,000. The present worth was about \$10,000 each so that the loss of the four will be about \$50,000. The other six can be repaired for from \$10,000 to \$20,000. Machine shops and tools make up a loss of \$20,000. Round house, \$5,000. Loss of \$10,000 gallons of oil. The total loss, small and larger round house will be \$125,000.

SILK PLANTS HAVE OPENED.

STRIKERS ARE NOT ALLOWED TO APPROACH GATES OF THE FACTORIES.

NEW YORK, June 23.—In accordance with the decision of the mill owners, reached on Friday last, all the silk plants in Hudson county, New Jersey, opened for business today.

At only one mill, however, that of Band H. Simon in Union Hill, did the full number of men report for work. There was a force of police on guard at the plant, and no one not employed in the mill was allowed to approach the gates.

There was a crowd of idlers in the vicinity, but no demonstration was made.

MANY DID NOT REPORT.

PATERSON, N. J., June 23.—Although many of the silk mills were open this morning, it is estimated that not more than one-third of the regular employees reported for work.

A meeting of the strikers is to be held today, but it is not expected that any definite action will be taken until the decision of the bosses as to the holding of a conference will be announced.

There were large crowds in the vicinity of the mills and the streets were filled with idle workmen, but there was no display of any kind in the early part of the day.

SUMMER SCHOOL WILL SOON OPEN AT COLLEGE.

Events of Interest in Conductor is Attacked the Town of Berkeley. By an Irate Husband.

BERKELEY, June 23.—Benjamin P. Kurtz, Thomas J. Ruffell, Stuart G. Masters and J. Raymond Carter have been appointed readers in the English Department of the State University. Before the opening of the regular University session in August next two additional men will be appointed to the same position, thus increasing the force of readers from two, last year's number to six.

The increase indicates the intention of the Department to lay special emphasis upon composition work in English courses. The addition of Professor T. W. Wells of Yale to the California faculty last year was the first step taken in this direction. To the readers will be assigned the task of editing the theses and essays of the Freshman and Sophomore classes.

The University authorities hold that the average high school graduate has not even average ability in expression and it is to correct this that such a marked increase in emphasis is to be made on actual work of composition.

BERKELEY BOYS ADRIFF ON STEAMER PORTLAND.

BERKELEY, June 23.—The passengers in the ill-fated steamer Portland, which is reported to have been caught in an ice-pack through the Behring Straits toward the Arctic Sea, is William E. Hoag, the son of Charles P. Hoag of this place. Young Hoag, who is a graduate of the State University, started for Alaska as a United States Surveyor. His many friends are anxious to hear of his safety. For his wife, as the reports of the "Nome City" which brought the news of the steamer's misfortune, would seem to indicate that perhaps even the vessel has been crushed by the ice.

CONDUCTOR ATTACKED BY IRATE HUSBAND.

BERKELEY, June 23.—What came very nearly being a shooting affair, occurred last Tuesday in the West Berkeley local, when James Paine, a West Berkeley wagon builder, pulled a pistol on Conductor Howard J. Paine and threatened to kill him. Paine accused Conductor Paine of undue intimacy with his wife, and hence the trouble.

Although an effort is being made by both parties to hush the affair, and no legal steps have been taken, it appears that Mrs. Paine intended to shoot her husband, and was conducted to her home by Paine. The husband drew his own conclusions, and proceeded to act upon them. It is claimed that Paine was intoxicated at the time of the attack, and knew neither what he was doing, nor what he was saying.

The situation was further complicated by the fact that Mrs. Paine is suing her husband for divorce on the ground of failure to provide.

STATE UNIVERSITY TO ENLARGE ITS LIBRARY.

The University authorities are planning for an immediate increase in the number of books in the library by over 2000 volumes, thus bringing the total number of books in the library

ture on "The Enlightened Despotism of the Eighteenth Century," and "The History and Writing of History." In the Philosophy Department, Professor Josiah Royce of Harvard, a graduate of the University of California, will give several courses. It was expected that Professor Howison, Mills and Professor Josiah Royce of Harvard, would also be able to instruct in the school, but illness will in all probability prevent him. Professor James M. Baldwin of Princeton will give a course in psychology and physiological problems.

A course in practical library methods will be given by Librarian J. C. Rowell. This is the first attempt on the coast to give instruction in library methods. At the close of the session, certificates will be awarded to those whose work has been satisfactory.

UNIVERSITY GRADUATE WILL TAKE A BRIDE.

BERKELEY, June 23.—Burt E. Hooper, a graduate of the University with the class of '99, and a former football player of note, will be married to Miss Maize Ewald, during the latter part of this month. Announcement of the date has not as yet been made.

Miss Ewald is the daughter of Mr. and Mrs. J. E. Ewald. Her father is a dispatch agent for the Southern Pacific.

After their marriage the young couple will reside in San Francisco, where Hooper holds a responsible position with the Independent Electric Light and Power Company.

TELEPHONE WILL BE EXTENDED.

PEOPLE IN CASTRO VALLEY WILL BE GIVEN A CHANCE TO TALK.

HAYWARDS, June 23.—The residents of Castro Valley will be pleased to learn that within a short time a telephone line will be extended into that district. J. Kraus, of the Pacific States Telephone and Telegraph Company made a recent trip through the valley and secured the signatures of fully sixteen residents who will have telephones placed in their homes. This is a great improvement for the valley, and the people of that district are anxious to keep up with the times. The showing is a remarkable one, owing to the fact that an agricultural district, such as Castro Valley is as a rule slow to take up with such improvements as telephones. J. B. Parsons, a prominent resident of that section, did a great deal towards influencing the company to make an attempt to run a line into the valley.

Mr. and Mrs. George Kavanagh recently entertained a number of friends at their home. Among those present were Mrs. Lee, Mr. and Mrs. Logan of Berkeley; Miss Ethel Craft of San Francisco; and Mrs. E. Elmer of Los Angeles.

A HOUSE PARTY.

A party of friends of Mrs. Jessup spent a few days in this place recently. Among those present were Mrs. Lee, Mr. and Mrs. Logan of Berkeley; Miss Ethel Craft of San Francisco; and Mrs. E. Elmer of Los Angeles.

"THE BELLS" PLEASES AT DEWEY THEATER.

Manager Stevens of the Dewey Theater closed that place of amusement last week so as not to detract from the attention which he thought was due to the Elks' Fair. The play which he had intended to present was "The Bells." This play will, therefore, be produced all this week. It is a great and stirring piece and will please the patrons of this house.

Last night it drew a packed audience which enjoyed the clever work of the company to the utmost. The play will be continued until next Sunday night.

SHE DID NOT HAVE A PHYSICIAN.

Mrs. Elizabeth Auslander, age 52 years, died Saturday night at her residence in San Lorenzo after a week's illness which she did not think serious enough to call a physician. Deceased was the wife of a fruit-grower at San Lorenzo.

As there was no attending physician the coroner has taken charge of the remains. An inquest will be held Tuesday morning at Haywards.

THE CHANGE HE WANTED.

"There was a witty fellow out in a Michigan hospital," said Representative William Alden Smith yesterday, "who had to be fed on a daily diet of eggs and sherry. His physician asked him how he liked it. It would be all right, doctor," he said, "if the egg was as new as the sherry and the sherry as old as the egg."—Washington Post.

DISTILLERS PREACH TEMPERANCE.

The Louisville Courier-Journal is authority for the statement that the Distillers' Association will inaugurate a crusade against intemperance. From their point of view intemperance is not only a vice that prejudices the public against the liquor traffic, but injuriously affects the traffic itself. They figure that the moderate drinker is a better customer than the man who gets drunk. They propose to inaugurate a vigorous campaign among saloon keepers and bartenders to induce them to discourage drinking to excess. Their idea is elevate liquor drinking from the status of a vice to the plane of genteel refreshment, by eliminating excess and removing its objectionable features. It has not occurred to them apparently that a man would never get drunk if he didn't drink at all. But a man would never die of gluttony if he never ate anything, though nobody would care to be answerable for the consequences.

However, if the distillers resolve to teach the virtues of temperance and sobriety let them do so. If they can eliminate the more objectionable features of the retail liquor traffic—or rather the more disreputable elements that engage in it—and lessen drunkenness, they will accomplish much good. Drinking to excess does create a sentiment adverse to the liquor trade, besides unfitting men for business and causing demoralizing exhibitions; and this causes onerous burdens to be placed on the traffic. With the distillers on the side of temperance excessive drinking should be much reduced. If they lessen intemperance, whatever be their motive, they will assist in a moral gain.

THE ORATOR'S LOST POWER.

It is said that Senator Hoar's speech against the Philippine bill was the greatest forensic effort in the Senate for a quarter of a century. But it is admitted that it did not influence a single vote. Does this prove that oratory is without force and effect in legislation? It would seem so, for nobody nowadays expects speeches to change votes. In the early days men like Clay, Webster, Calhoun, and Benton, used to sway opinions in the Senate by arguments on the floor, but that time is long past. Nowadays when some statesman delivers a speech of exceptional power, he is applauded by those who believe with him and complimented by those who oppose, and that is all—the voting goes on as if he had never spoken.

As a fact, the great speeches in Congress are not expected to influence pending legislation. While nominally addressed to the legislative body, they are in reality addressed to the nation at large; they are tuned to mould opinion outside and not inside of Congress. They are either pleas in justification or appeals to the masses to reverse the verdict delivered in the legislative chamber. Doubtless they have their uses, but they are useless in debate. Senator Hoar spoke and voted against the policy of his party, and the Democrats will use his speech as campaign material. Not until the returns from the next election are in can it be told what effect the speech has had on the public mind. It is noteworthy that some of Burke's greatest and most classic orations failed to move the English people as signally as they failed to affect the action of Parliament.

By a single speech Gladstone once destroyed a ministry. Such a feat would be impossible in these days. Perhaps Gladstone never reached greater heights of moral grandeur nor finer flights of polished oratory than in his advocacy of Home Rule for Ireland, but Parliament and people alike turned from the path he pointed out. It was not his sincerity, but his judgment that was distrusted. That is the case with Senator Hoar today. No speech in Congress is held in higher respect for his abilities and his honesty of purpose, but the American public is convinced that he is so carried away by moral enthusiasm that he fails to grasp the practical side of the Philippine question. However, his magnificent speech serves to show how important oratory is to control or mould modern legislation.

The Bakersfield Californian has a long editorial on Democratic politics, which we presume is intended to mechanically represent the topsy-turvy condition of the Democratic party. The first half of the article is right side up with care, but the second half is upside down. This indicates that the party is facing both ways. It is a long time since we have seen the Democratic position so correctly depicted.

It appears that Colonel Arthur Lynch swore allegiance to the South African Republic before he enlisted in its army. This moves the Springfield Republican to say that he is a traitor to just the extent that Paul Jones and Tom Paine were in the war of the American Revolution. But Paul Jones and Tom Paine never went back to England to run for Parliament after espousing the American cause.

Two of the Republican Senators who voted against the Philippine bill are booked for retirement next March. Wellington of Maryland will give way to German, Democrat, and Mason of Illinois will resign his place to Congressman Hopkins or some other Republican.

COUNTING UNHATCHED CHICKENS.

The defeat of the bill to admit Arizona, Oklahoma, and New Mexico, as States has started speculation as to what the effect on the coming elections will be, and also what the effect would have been had the bill passed. It seems a good deal like speculating on the kind and size of fish you are going to catch before you start fishing. It will be odd if the failure to admit the Territories will affect voting in the States. Outside the Territories, the question of admission is a sentimental one and cannot control political action. It is too remote to be a real issue.

Nobody can tell how the Territories would vote in case of admission. In 1876 the Democrats admitted Colorado expressly to better their chances of electing the President, yet Colorado made the defeat of Tilden possible. If Colorado had gone Democratic, he would have had 187 Electoral votes to 152 for Hayes. The State was admitted on the assurance of the Democratic managers that it was surely Democratic. But it wasn't, and the experience with other newly admitted States has been equally baffling to political observers. The Democrats admitted Oregon, but Oregon has never given its electoral vote to Democrats but twice in its history—to Horatio Seymour and General Hancock. Idaho, Montana, Utah and Washington have been erratic in their political affiliations. Apparently their inhabitants do not consider what party admitted them into the Union when they go to vote. More sentimental ties have little binding force in politics. The present and the future concern the average voter much more than memories of the past.

Arizona, Oklahoma, and New Mexico, ought to have been admitted, but delay will work no harm and do no great injustice. Two or three years longer waiting will not seriously inconvenience their inhabitants, and national interests cannot suffer.

KEEP MOVING.

The Elks' Fair has shown the people of Oakland what they can do if they will only work together for a common object. Can't the same spirit and unanimity be infused into the movement to improve the city? Now that we have got headed right and made a good start, let us keep things moving. The wise plan is to take one thing up at a time and push that through to a successful conclusion, then take up something else. The proposed system of public improvements is the immediate and uppermost question at present. When we have settled that we will be ready to deal promptly with other projects for municipal betterment. We already have a handsome new library, and the Government is erecting a fine postoffice building. With a new City Hall and improved streets, parks, and new school houses the city will be equipped for all emergencies for many years to come, and the ground will be cleared for dealing effectively with the other problems of municipal administration. Until one thing is settled all things are unsettled, and every project advanced immediately becomes entangled with all other projects. Thus one thing is played off against another, and the community remains in a chaotic condition, without common purpose and with nothing in the way of achievement for what it is doing for itself. If the inhabitants of Oakland will show anything like the enthusiasm and energy in behalf of public improvements that they have shown in behalf of the street fair, they will hardly know their city inside of three years. It is to be hoped that the pace they have set themselves will not be allowed to flag.

WATTERSON AND TILDEN.

Henry Watterson's statement that Tilden died "with words of scorn and contempt for Grover Cleveland on his lips" may be true but in view of Watterson's part in the intrigue which expelled Tilden out of the Presidential race in 1880, it hardly lies with him to reproach Cleveland for unfaithfulness to the sage of Gramercy Park. Had Tilden instead of Hancock been nominated in 1880, it is almost certain that he would have been elected. That he was not nominated was due to a stealthy intrigue of Southern and Western Democrats who did not think Tilden was quite Bourbon enough for their purposes. Watterson was one of the conspirators, and Tilden, shrewd old politician that he was, was deceived and buncoed in the house of his pretended friends. The trick which side-tracked Tilden at Cincinnati was a barren victory for the Bourbons, for it cost them the Presidency and paved the way for Grover Cleveland, for Garfield's election caused the feud which made him Governor of New York by the phenomenal majority that brought him to the front as a Presidential possibility. The less Watterson says about Tilden the better, for he was guilty of a gross breach of faith towards that Democratic chieftain.

The Hon. Richard Olney says nay. He writes to some Tennessee Democrats that he will not be a candidate for the Presidency. Mr. Olney has forestalled the decision of the American people.

Maud Lillian Berri, the singer, must be content to remain hopelessly second class on the operatic stage. She only had \$2,000 worth of diamonds stolen from her room.

AN ALAMEDA BOY FALLS FROM TRAIN

WAS GOING ON A CAMPING TRIP WHEN HE MET WITH AN ACCIDENT.

SANTA ROSA, June 22.—Private McDermott, of Company G, Fifth Regiment of Alameda, fell from the special train which conveyed the Fifth Regiment to their camp at Ukiah Saturday evening, and was painfully injured. The accident occurred south of Petaluma, and to the fact that the train was running slow at the time of the accident the young man owes his life. The train was stopped and a hospital corps detached to pick up the injured man. A hasty examination revealed many hurt and bruises, but it is not believed that any bones were broken. The private was taken on with his company to Ukiah.

Just outside of town, Colonel Whitton and all the officers of the regiment express themselves as much pleased with the camp. It is clean, dry and shady. The water is light and sweet, supplied from the giant oaks, city water is supplied and telephone connection is established. A fine dining floor has been laid and this will be a week of gaiety in Ukiah.

CHARGE WAS NOT SUSTAINED.

ALLENDALE NEIGHBORHOOD ROW IS HEARD IN A FRUITVALE COURT.

FRUITVALE, June 22.—The charge of disturbing the peace brought by Mrs. Johanna Stehle of the Allendale Tract, against Andrew Hunse, a neighbor, has been dismissed by consent of Mrs. Stehle. The trouble between the neighbors arose over the possession of a piece of water pipe and ended in the woman having Hunse arrested for disturbing her peace, alleging that he had used questionable language in her presence.

MANY IMPROVEMENTS.
Frank Orr, proprietor of a large nursery on the San Leandro road and Central avenue, has had the old store building moved off his property and a great handsome new cottage on the site of the old building. Active work on the new residence has already been started.

The two-story building moved from Mr. Orr's place is being moved to Nulty avenue, where it will be occupied by John Gray, the grocer. The lower floor will be used for a grocery store, while Mr. Gray and his family will reside up stairs.

MAUD BERRI WAS ROBBED.

Oakland Singer Meets With a Heavy Loss in Chicago.

CHICAGO, June 22.—Maud Lillian Berri, prima donna of the Castle Square Opera Company, lost \$2,000 worth of jewelry from her room in the Victoria Hotel this morning. Miss Berri and her husband, Commander Frank Moulton, went to the Victoria Saturday evening. At 8 o'clock in the morning Miss Berri was awakened by a noise in her room and, looking up, saw a man just backing out of the door. Her first thought was that some one had come to her room by mistake, but she spoke to the man and asked him what he wanted. The man turned to look at her and, without saying a word, he closed the door behind him.

Mrs. Moulton woke her husband and told him that a man had been in her room. "I am a hard sleeper," said Moulton, "and I do not wake easily. It was several minutes before I comprehended what she was saying. Then I got up and looked in Mrs. Moulton's grip for her jewelry. It was gone, and I at once notified the office. We could not find any trace of the man, however." Among the jewels lost were a diamond collet bracelet containing sixteen large diamonds, a solitaire earring, several rings, a brooch of diamonds and emeralds, and ten pearl pins.

Maud Berri was formerly an Oakland girl. She is well known here and was once a soprano in the First Presbyterian Church.

THEY BEAT AN OFFICER.

San Francisco Toughs Are Rounded Up and Landed in Prison.

After spending a day with the Independent Times, who gave a picnic at Niles Canyon Sunday, a half a dozen intoxicated men assaulted Railroad Policeman J. A. Butler, with the result that the officer was severely beaten. A squad of Oakland policemen had to be called upon to quell the disturbance.

The trouble started at Decoto, a small station west of Niles, when Butler requested the men to make a little less noise. The only response he received was a cut on the head with a beer bottle in the hands of John O'Brien, a shoemaker from San Francisco.

From that on a general fight ensued, which only ended when Detective Kyte, Policeman Such and Scout, who had been telephoned for, met the train at Broadway and First streets and gathered in the rioters.

John O'Brien was charged with assault with a deadly weapon, Joseph Smith was charged with battery, Charles Powers, a ship fitter, and Thomas Roe, a boiler maker, were locked up for disturbing the peace.

All of the arrested parties are from San Francisco.

Officer Butler came out of the fight with a cut head, black eye and numerous bruises.

BONDS ARE VOTED IN RICHMOND DISTRICT

Bonds to the extent of \$15,000 were voted Saturday for the erection of a public school building at Richmond. The vote was 149 for and 40 against.

An interesting discovery has been made at the island of Capri, in the shape of an underground vault, in which the Emperor Tiberius used to confine the victims of his displeasure prior to their being thrown into the sea. The vaults are covered with inscriptions, some of which go to show that among those immured subsequently in the prison were the sister of the Emperor Commodus—Cincinnati Enquirer.

THEY CAUGHT CHERRY THIEVES.

SAN LEANDRO OFFICERS HAVE A LIVELY CHASE AFTER OFFENDERS.

SAN LEANDRO, June 22.—Marshal Gelsenhofer and A. B. Cary recently captured two daring cherry thieves after an exciting chase. The thieves were discovered by Mr. Cary, in whose orchard they were filling several sacks with cherries. Mr. Cary at once informed the Marshal, and they started in pursuit of the robbers. After a long chase the men were captured. They said they were from San Francisco, and begged Mr. Cary not to prosecute them. They begged so piteously that Mr. Cary allowed them to depart despite the fact that they had ruined a cherry tree. The men had stripped from the tree two sacks full of cherries, which will in all probability ruin the tree, it being of the Royal Anne variety and not very strong.

Every year there is destroyed in this district many valuable cherry trees by this class of thieves. They are not satisfied with taking the cherries, but pull off great branches of the fruit, which injures the trees.

HONOLULU ARRIVALS.

Some twenty-five Portuguese families arrived here last week from Honolulu, owing to the lack of houses, twelve families left for Santa Clara. A large number of these people left this district some years ago during a period of hard times. Hearing of the rapidly increasing prosperity of the district, they are now returning, only to find that it is impossible to secure houses. Many of those who went to Santa Clara will return to this place as soon as they can secure houses. A number of the new arrivals have already found employment on the ranches about here and in the canneries, both the ranchers and cannery men being greatly in need of help.

CARD CLUB MEETS.

The Card Club of San Lorenzo met at the home of Mrs. Walworth of San Leandro one day last week. A delightful afternoon was passed by the ladies. At their favorite game the prizes were won by Mrs. Martin, Miss Martin and Miss M. Smyth. A dainty luncheon was served before the ladies returned to their homes.

PLANS OF THE SANTA FE ROAD.

Chronicle Thinks It Oan Fathom Some Recent Purchases.

[Chronicle, June 22.]

Gradually the trans-bay plans of the Santa Fe Railroad Company are being developed. It has for a long time been suspected of being the real owner of the street railroads managed under the corporate name of the Oakland Transit Company and that the Realty Syndicate is merely one of these partly concealed auxiliaries which the Santa Fe has invariably employed elsewhere for its financial carrying out of its policy and its plans. A recent real estate deal in Emeryville reveals for the first time the true connection between the three corporations. This transaction embraces a tract of land which is to be used as a union depot for the electric railroad system of the Oakland Transit Company and the street system of the Santa Fe.

The acquisition of this depot site is clearly another step toward the development of the new ferry service to be established by the Santa Fe Company between the western end of the bay and San Francisco. Vast tracts of land have been acquired by the Realty Syndicate on the eastern and western outskirts of Oakland tributary to the electric railroad system which it is controlling in the interest of the main corporation, and it is quite probable that when the plans of the latter are fully matured and every link in the chain of their contemplated operations is welded together, similar developments in and around Oakland will be witnessed.

It will be no surprise, therefore, that the self-interest of the Santa Fe to build up every foot of available territory tributary to its line is every prospect, therefore, that Oakland is nearing the opening of an era of development, the like of which it has never before experienced, and it behooves the city and its inhabitants to prepare themselves for changes which promise to injure greatly to their advantage.

REVOLUTION IS GAINING GROUND

BOLIVAR IS NOW HAVING LOTS
OF TROUBLE WITH THE
REBELS.

(Correspondence of the Associated
Press.)

WILMSTAD (Island of Caracas),
Sunday June 15.—The revolution in
Venezuela is gaining ground and the
government of President Castro is los-
ing ground daily and is obliged to con-
fess in its organs, in spite of the terror
which reigns in the capital, Caracas,
that its armies are not always victori-
ous.

A revolutionary movement broke out
during the night of May 23 in Ciudad
Bolivar, capital of the State of Bolivar.
A colored named Farias headed the re-
volt in the barracks, and after five days
of fighting in the streets, constrained
the president of the State of Bolivar,
Gen. H. Sarría, to evacuate the town
and all back to Puerto Tabara.

The revolutionary General, Farias, one
of the General Matos' best lieutenants,
who President Sarría represented as
dealing with four men, appeared last
week before La Vela, on the Gulf of
Cura, with 100 men and after a struggle
of five hours, took the port.

President Sarría has signed a de-
claration providing for the evacuation of
the port of Cura, on the Gulf of
Cura, for the outfit of Col-
ombian merchandise which has been
retained for upward of nine months in
Cura.

Captain of Police Wilson left on the overland limited this morning for Chicago to return with G. N. Clayton who is wanted here for swindling Mrs. Janet G. Putzer out of \$200 by representing that he had a friend named George P. Hiller who wanted to borrow such a sum for a short time at large interest. Mrs. Putzer advanced the money and Clayton left for parts unknown. Chief Hockley was notified Saturday that Clayton was in Chicago and "Captain Wilson" left with requisition papers. COUNCILMAN CHARLES BON ANSWER'S DEATH'S CALL.

He Passes Away Peacefully Surrounded By His Family After an Illness of Five Months.

Charles A. Bon, Councilman-at-Large and last survivor of the noted wine firm of Chauche & Bon, died at his home, 3029 Telegraph avenue, Saturday night, from an illness that the physician had for days known to be mortal. Death came with Mrs. Bon and her daughters by the bedside of the husband and father.

Dr. O. D. Hamlin, who had attended Mr. Bon throughout his illness with unwavering solicitude, was present when the end came.

Charles Bon's deceased has caused profound regret in the community. He was a familiar figure about town, being noted for his geniality, kindly disposition and cheerful heart. He was a man literally without enemies, for he took life in too much good humor to inspire enemies. His nature was too sunny to provoke a quarrel or permit him to engage in one.

Mr. Bon had a fine physique, and until recently was always in robust health. Some months ago, however, he began to be troubled by some complications, and his liver and kidneys became affected. These disorders culminated in a severe attack of jaundice, which confined him to his bed for some weeks.

While convalescing from his illness, he was seized with a severe hemorrhage down town one day, and was driven home completely debilitated from loss of blood and general weakness. Since then his decline has been steady and several days ago Dr. Hamlin and other physicians decided after consultation that his case was hopeless. Frequent hemorrhages and the development of tropical tendencies destroyed vitality completely.

The deceased was born in San Francisco June 29, 1864, of French parents.

His father being also a vineyardist and wine merchant. Since reaching the age of five years, however, he has resided in Oakland, living in the home his father built out on Telegraph avenue when it was a country road. He conducted the wine business of Chauche & Bon in San Francisco, and also the famous Mount Rouge vineyard in Livermore Valley, founded by his father.

Mr. Bon was partner with his brother-in-law, A. G. Chauche, in the wine firm until the latter's death. Since that time he has conducted the business personally. His sister, Mrs. M. E. Chauche, has his only surviving relative, saving his wife and daughters. About thirteen years ago Mr. Bon married a charming and accomplished wife, who survives him. She was Miss Marie Thomas, the daughter of F. G. Thomas, a retired capitalist of San Francisco. The couple have two children, Helen, aged 12, and Claire, aged 8.

Mr. Bon was a member of No. 3 Lodge, K. P. O. E., of San Francisco, and Oakland Parlor, Native Sons of the Golden West. He was also a member of the Athlete and Relevance clubs. Although he has never held office in politics, Mr. Bon was elected Councilman-at-Large on the Republican ticket at the last municipal election, and was chairman of the Ordinance and Judiciary Committee. He has attended but few meetings during the past few months, however, on account of illness.

The Council will meet this evening and adjourn out of a respect to the deceased. The members will probably attend the funeral in a body.

The funeral will take place from Sacred Heart Church, Temescal, at 10 o'clock tomorrow. Rev. Father Sesson will officiate. Burial will be in Holy Cross cemetery. The interment will be in St. Mary's cemetery.

The death of Mr. Bon leaves a vacancy in the Council that Mayor Barlow will be called on to fill.

THE WHEEL FLEW IN FRAGMENTS.

PROPRIETOR OF THE BRASS WORKS NARROWLY ESCAPES SUDDEN DEATH.

This morning, while testing a new enemy wheel, Vincent Chloupek, proprietor of the Oakland Brass Works, 513 Fourth street, was nearly killed by the wheel flying to pieces. The machine was revolving at the rate of 5700 revolutions a minute. Chloupek was leaning over the wheel when it flew apart with terrific force. One piece struck Chloupek on the left side of the face, laying his forehead bare, and cutting a deep gash under the eye. He was rendered unconscious by the blow and was taken to the Receiving Hospital, where his wounds were dressed by Steward Borchert.

As soon as the cuts, which may affect the sight of the left eye, Chloupek suffered a concussion of the brain, and is now resting under the care of a physician, at his home, 844 Alice street.

ASKS \$5000 DAMAGES FOR AN INJURED ARM

Attorney A. A. Moore, on behalf of the Southern Pacific Company, has filed a demurrer in the suit instituted by Olive M. Hyde for \$5,000 damages for injuries alleged to have been received on the Seventh street local.

The complainant alleges that owing to a defective gate, her arm was caught and permanently injured by the door sliding too violently as the train was brought to a stop.

The demurrer states the complaint does not state facts sufficient to constitute an action, and that it is uncertain and ambiguous.

The defendant asks a dismissal on these grounds.

ASK THE SUPERVISORS TO GIVE PRECINCT SYSTEM.

Ministers Want the People to Vote on the Local Option Proposition.

At the meeting of the Supervisors this morning the question of local option in the matter of the opening of saloons was brought up by a delegation of citizens, among whom were a number of clergymen.

E. J. Martin said that there was an ordinance on the subject pending before the Board and he would like to have it taken up for action.

Rev. D. Dille said that the ordinance in question was simply intended to give the people the right to say whether or not they wanted saloons in their neighborhood. It was simply a question of the State, the counties had the right of liquor under restraint and as a consequence, that part of the State was attracting a large immigration and in that immigration were people who were desirable. He had received a number of letters from people in the East and many of the writers were people who wanted to settle here. All those letters asked how the liquor traffic was controlled here. The Board should pass the ordinance in question because it gave the people the right to which they were entitled in keeping saloons out of their neighborhood if they felt so disposed.

REV. VOSBURG.

Rev. Vosburg said he was not speaking for himself but for others who were opposed to the granting of liquor licenses to be used in their neighborhood. The matter of local option was constitutional because it obtained in many places of the East. He had recently been in Salt Lake City and was gratified to see that the saloons were closed on Sunday. There was no temptation therefore people to drink on that day.

The result was that a better class of citizenship was being raised and being attracted to the place. The same result would be experienced here if the local option ordinance should be enacted.

REV. HADLEY.

Rev. L. M. Hadley said the ordinance was a common sense one. It did not increase the bond nor increase the cost of the license. It simply gave the people a right to keep saloons out of their neighborhood if they wanted to do so. The people thought that the matter was entirely in the hands of the Supervisors, but that the people had something to say with it.

The speaker went on to say that the eyes of the people of the county were upon the Board. Saloon men would watch them as well as would the people who were in favor of the ordinance.

SUPERVISOR MITCHELL.

Supervisor Mitchell here interrupted the speaker.

"I want to say," said Mr. Mitchell, "that speaking for myself and I think I represent the other members of the Board, that we are not to be influenced by such views and that the Board will act without fear of either side."

Mr. Hadley said that he had no intention of doubting the courage of the Supervisors.

Later the speaker touched on the constitutionality of the ordinance, and Supervisor Mitchell again interrupted and said that the District Attorney had given an opinion that the ordinance was constitutional and that the Board had no doubt on that point.

Supervisors Mitchell further stated that the ordinance had not been pigeonholed and that if it had not been for the illness of Supervisor Talbot the ordinance would have been acted on some time ago. He suggested the appointment of a committee on the part of the friends of the ordinance to confer with the committee of the whole of the Board.

The discussion was then closed.

HE TOOK HIS LIFE.

ALAMEDA, June 23.—Joseph T. Edds, the electric road conductor who hit Policeman McSorley in the ear last April, was the man who committed suicide Saturday morning in a lodging-house in San Francisco by turning on the gas.

It was in the evening that Edds passed the policeman, who informed him that he was riding his wheel without a light. Edds replied with a curse and the officer immediately gave chase to the young man, and in the struggle which followed, was bitten twice on the nose and injured in the groin so that he could not walk for several days.

When the case came up in the Police Court, McSorley refused to prosecute Edds, because of his previous good character and family influence, and Edds was let off with a heavy fine. Immediately after his release Edds resigned his position and went to San Francisco, where he has been residing. The young man felt himself in utter disgrace and brooded continually over his misfortune.

He was a resident of the West End and was very popular among the employees of the Transit Company. As an evidence of the sympathy that was manifested during his trouble with the policeman the employees of the road made a number of contributions to Attorney St. Sure to defend him.
